

6 October 1960

Dear Sir:

In accordance with your verbal request, we are forwarding herewith estimated costs for spare parts, operation and maintenance manuals, customer location support, and an in-plant customer training program.

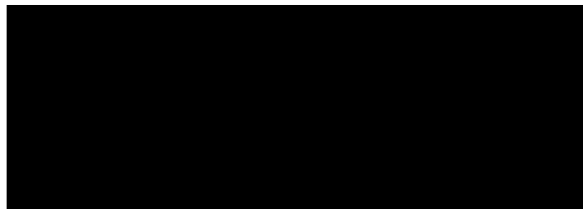

The estimates are set forth in the attached exhibits as follows:

- Exhibit A - Spare Parts
- Exhibit B - Operation and Maintenance Manuals
- Exhibit C - Customer Location Support
- Exhibit D - Customer Training Program

Each of these estimates has been based upon the understanding that procurement of these proposed services would be under our basic contract which is now in force.

STATINTL

Very truly yours,

Vice President and General Manager

JSL:HRE/ko

Spare Parts

STATINTL The total estimated cost to provide spare parts for the photographic rectifier
printer is based upon a factor of 15% of the total estimated manufacturing cost
[REDACTED] per unit.

STATINTL The estimated cost for spare parts is therefore computed to be 15% of [REDACTED]
STATINTL [REDACTED] The total price would include the contract fee of [REDACTED]

The specific items and quantities to be provided as spare parts will be submitted
at a later date.

Operation and Maintenance Manuals

The estimated cost for ten (10) copies of the operation and maintenance manual

STATINTL is 

The manual would consist of seven sections made up into two volumes as follows:

Volume I**Section**

- | | |
|---|---------------------|
| 1 | Introduction |
| 2 | Theory of Operation |
| 3 | Installation |
| 4 | Operation |

Volume II

- | | |
|---|-------------|
| 5 | Maintenance |
| 6 | Parts List |
| 7 | Spares |

The price estimate has been based upon a total make up of 391 pages.

Customer Location Support

The total estimated price to provide support at the operating locations is

STATINTL

This is in addition to the two men for two weeks at each location for installation which is provided for in the present scope of work. This additional support includes one senior design engineer for a total of eight (8) weeks and a senior technician for a total of thirty (30) weeks.

The price has been computed as follows:

STATOTHR

Customer Training Program

STATINTL

The total estimated price for a four (4) week customer training program is [REDACTED] including contract fee of eight percent [REDACTED] This price is based upon a maximum enrollment of four (4) customer engineers or high level technicians.

STATINTL

STATINTL
